Objective

Hard-working Computer Science Honours student seeking a position as a Junior Software Developer where skills and experience can be further extended.

Projects

Math Quiz (2023)

- Programmed a math quiz website using HTML, CSS, and Javascript which allows users to measure their knowledge, abilities, and skills.
- Wrote several functions which generated questions randomly and provided multiple choice answer options.
- Kept track of the user's score and displayed at the end of the quiz.

To-Do List (2023)

- Developed a to-do list website using HTML, CSS, and JavaScript that allows users to organise their tasks in a list.
- Allowed users to cross each one off once completed or remove them completely from the list.

Portfolio (2023)
- Programmed a one-page scrolling portfolio website using HTML, CSS, and Javascript, which displays all my current projects, hobbies, accomplishments, and my contact information.

Accomplishments

Mixed Martial Arts/Taekwondo *(2013-Present)*

- Attained Second Dan Black Belt
- Trained in leadership classes to learn how to instruct and advance students' techniques in patterns, self-defense, and kicking combinations

President of High School Chess Club *(2021-2022)*
- Guided and ensured quality of events such as chess tournaments, club meetings, and practice
- Controlled and communicated on an online forum for the club
